# Artificial Turf Applications

APX Turf is the ideal flooring solution for any large-scale or commercial project. Our products were created specifically with the commercial developer in mind. Perfect for a variety of applications — From commercial landscaping to airports, hotels, pool decks, rooftops, playgrounds, pet facilities, and putting greens. Discover the APX difference, setting the bar for quality, consistency, and aesthetics.

# Low Maintenance & Sustainable

With an increasing demand for water conservation and ecological alternatives to conventional landscapes, APX Turf is the solution for you. Our products are sustainable & eco-friendly. No mowing, watering, or harsh chemicals are required to maintain. By saving tons of water and thousands of dollars annually in maintenance contracts and equipment, APX Turf will keep your commercial property looking and thinking green.

# ***Why Artificial Turf?***

- **Commercial Landscaping:** Increasingly, businesses are turning to synthetic turf for landscaping due to its low water requirements and maintenance-free appeal.
- **Environmental Considerations:** The focus on sustainability and water conservation is spreading across the nation, boosting the demand for synthetic turf.
- **Low Maintenance & Cost Effective:** Artificial grass doesn't require typical upkeep such as watering, weeding, fertilizing, or mowing. Synthetic grass is also durable and will last much longer than natural grass without needing to be replaced.
- **Non-Toxic Materials:** APX Turf is completely non-toxic, PFAS safe, and free of harmful chemicals used to maintain a natural lawn.

# ***ARTIFICIAL TURF*** ***Applications***

# ***Lawns & Landscapes***

Upgrade your commercial landscapes with APX Turf. Our high-quality landscaping series is realistic, luxurious, and vibrant. With UV resilience and heat-safe technology for added longevity under strong sun. Project owners across the nation are making the switch to artificial turf lawns because they are a low-maintenance grass alternative that saves time, money, and water.

# ***Playgrounds***

The safest flooring system for play areas on the market! With children's safety and product durability as our main goal, our playground turf is safer than sod, wood chips, sand, and even rubber surfaces. Our anti-static infill options reduce static build-up and clinging, even in dry weather conditions. Engineered with the highest-quality materials, our products can withstand the impact of high foot traffic and children at play.

# ***Pet Areas***

Our extremely durable artificial grass products are completely non-toxic, PFAS safe, odor & stain-resistant, and durable. Ideal for any dog park or pet facility. With super effective draining capabilities and anti-microbial infill options, this line of high-quality synthetic grass is the solution for any commercial pet area.

# ***Golf & Putting Greens***

Choose realistic, long-lasting synthetic turf to customize any putting & golf green. Our durable products are built to withstand impact and provide an even playing surface. This high-quality product will exceed your expectations with unsurpassed quality and true putt consistency.

# ***Pool Decks***

A non-slip surface for pool decks. APX Turf offers high-quality synthetic grass that's specially crafted for pool areas. With anti-slip, stain-resistant, and UV-resilient properties, our artificial turf is the safest and most durable flooring option for pool decks. Our advanced backing system is tested to drain up to 30" of water per hour. No need to worry about flooding! We offer heat-safe technology for areas that see strong, direct sunlight.

# ***Rooftops***

Elevate any rooftop space with APX Turf. Our premium turf solutions offer a luxurious, vibrant aesthetic, transforming underutilized areas into stunning amenity spaces. Forward-thinking businesses are choosing artificial turf for rooftops because it provides a low-maintenance, UV resilient surface that creates an attractive and functional environment.
